WINTER STAND OFF SHELTER FIELD DAY

Wednesday 16th May
12.30 pm

Come along to hear and discuss the first seasons results for the Winter Stand Off shelter trial in operation on the Stratford farm. Includes discussion on the use of standoff shelters, covered feed pads and wintering barns on dairy farms and the whole farm soil fertility monitoring on the demonstration farm.

Special guest speaker Dr John Roche DairyNZ Scientist discussing the use of standoff pads and winter barns in mainly pasture based Irish dairy farming systems. Also covering effective and economic supplement use on farms.

Where:
DTT Stratford Demonstration Farm - 44 East Road Stratford
